## 1. INTRODUCTION

The Third Gender Equality Plan of the University of Vic - Central University of Catalonia (UVic-UCC) has been debated and drafted by the equality commission. This commission is chaired by the General Secretary of the University and is made up of the person responsible for the Equality Unit, the Centre for Gender Studies, the UHub - University Community Services, the Talent Policy Unit, one representative of the Staff Committee and several members of teaching and research staff and administrative and service staff, from the Balmes University Foundation (UVic), the Bages University Foundation (UManresa), the Foundation for Advanced Studies in Health Sciences (UMedicina) and the Elisava University School Private Foundation (UElisava). The Plan covers a five-year action period that began in 2022 and will be implemented until 2025.

Based on an analysis of the current situation, the Third Gender Equality Plan defines seven areas of action. For each of these areas, a set of objectives have been established that are implemented in a variable number of actions, each of which is associated with the people or organizations that are responsible for it, the respective measurement indicators and the corresponding timing of its implementation. The main objectives pursued for each of the areas that are covered are summarized in the table below.

Main objectives of the UVic-UCC's Third Gender Equality Plan (FUBalmes, FUBages, FESS and ELISAVA)

1. Promote equal opportunities and the gender perspective in university strategy and culture.
2. Ensure the adoption of the gender perspective in the studies that are taught and in research.
3. Increase the visibility of the Equality Unit, the Third Plan for Gender Equality, and protocols for harassment and use of the preferred name.
4. Ensure that the gender gap among students is reduced.
5. Promote the participation of women in governing bodies and reduce the gender gap in administrative and service staff, teaching and research staff and other specific groups, according to the foundation of reference.
6. Facilitatejoint responsibility for the family and work-life balance in the university community.
7. Effectively manage cases of sexual harassment that may arise and offer training to the university community to detect and manage these situations.
8. Ensure non-discrimination on the basis of gender in all processes (staff selection, request for benefits included in the collective agreement, training, etc.).
9. Promote and facilitate alliances between the foundations that make up the UVic-UCC to achieve the objectives set out in the Third Equality Plan.

## 2. BACKGROUND

Although there is considerable sensitivity to inequalities in the university environment, difficulties still arise in women's academic careers, which often add to the obstacles that women encounter in the world of work in general.

The First Equality Plan of the University of Vic was approved by its Board of Management on 20 May 2008 to respond to the need to address one of the most topical current and past challenges in our society: gender inequalities. ${ }^{1}$ Its main objective was to apply measures to ensure equal opportunities and equal treatment between women and men in all areas of our institution's activity. A situation of equality is understood as one in which both sexes are represented in a balanced way, that is, each has a presence or representation of at least $40 \%$ of the total, or when the gender perspective is guaranteed in all mechanisms of access, stability and labour or functional mobility in the institution.

In the organizational culture of the UVic-UCC, there is special sensitivity to gender issues. Examples of this are the creation In 1999 of the Centre for Women's Studies (CEID) to promote gender studies; dissemination of the reality of women and cultural productions throughout history; the feminist essay collection Capsa de Pandora (Pandora's Box), published by Eumo Editorial; and the creation of the UNESCO Chair: Women, Development and Cultures, in 2004, shared with the University of Barcelona. In 2014, it was agreed to change the name of CEID, which became the Centre for Gender Studies (CEIG) in order to expand the centre's possible study areas. Currently, this study centre has a total of 56 UVic-UCC researchers from seven research groups - out of the existing twenty-five - who adopt a gender perspective in their work, either exclusively or in one of their lines of research.

The participation of UVic-UCC in the creation of the Inter-University Women and Gender Studies Institute (iiEDG) in 2007 should also be highlighted, and its participation in the official master's degree in Women, Gender and Citizenship, taught by seven Catalan universities. Since 2013, UVic-UCC has offered the PhD programme in Translation, Gender and Cultural Studies and participates in the Joint PhD programme in Gender Studies: Cultures, Societies and Politics. It also teaches the master's degree in Cooperation and Equity, promoted by the UNESCO Chair: Women, Development and Cultures.

In the area of research recognition, the UVic-UCC awards two prizes annually: the Francesca Bartrina award for the best final year project with a gender studies perspective, funded by the Catalan Institute of Women, and the Catalan Institute of Women's specific award for the best upper secondary school final project.

[^0]The First Equality Plan focused on defining objectives and actions that would promote equal opportunities and equal treatment in women's professional and employment development and increasing the representativeness of women in academic and management positions. However, it was not until 2012 that equality became highly relevant at the University of Vic with the creation of the Equality Unit. This was established to promote and encourage gender policies and ensure compliance with the principles of equity and equal opportunities between men and women within the university community. The creation of the Equality Unit was approved by the Board of Trustees of Balmes University Foundation (FUB) on 18 December 2012. The definition and functions of the Equality Unit are contained in the University's Organisational and Operational Regulations, Articles 80 and 81, approved by the Governing Council of the UVic-UCC on 3 December 2019 and by the Board of Trustees of the Balmes University Foundation on 10 December 2019.

The Second Equality Plan focused on the consolidation of gender equality policies within the UVic-UCC. During its period of validity (2017-2021), almost 800 activities were undertaken associated with implementing the 81 actions planned to achieve the 24 objectives in the 7 areas that are covered. The actions were focused on offering training in teaching and research areas, improving aspects of communication and equality in leadership positions, and carrying out actions to prevent and address sexual violence. In this second stage, relevant projects were promoted such as the tenth long series of actions, carried out with funding from the Spanish Ministry of Equality's State Pact against Gender Violence, or the 8 March Project, linked to managing funds that are not received by workers due to the strike called by unions on that date. The UVic-UCC is also part of the Network of Gender Equality Units for University Excellence (RUIGEU). The evaluation of the Second Equality Plan received a remarkably high rating (8/10) in terms of the degree of execution of the planned actions.

## 3. EVOLUTION AND ASSESSMENT OF THE CURRENT SITUATION

A first assessment of the current situation indicates that the University of Vic Central University of Catalonia has a predominance of women in its overall composition, despite the fact that clear occupational segregation is detected in the areas of administration and services, and vertical segregation in terms of access to positions and responsibilities in academic and management areas.

An analysis of data provided by the Talent Policy Unit (APT), the Finance and Staff Management Unit (AGEP), the Library, the Research Transfer Office (OTRI), the International Centre for Continuing Education (CIFC) and the ICT Unit reveals the changes that the University experienced in the period between 2016 and 2021.

The governing bodies that have come close to gender equality are the team of the Rector's Office, the FUBalmes Board of Trustees and the Staff Committee. In contrast, the Faculty of Health Sciences and Welfare (with a predominance of women) and the Faculty of Science and Technology (with a predominance of men) have percentages that are far from what is considered an equal composition in terms of gender. A notable investment has been made in the management of departments in this period. They have shifted from being predominantly male to being predominantly female.

| Government bodies | 2016 |  | 2021 |  |
| :--- | ---: | ---: | ---: | ---: |
|  | \% of men | \% of <br> women | \% of men | \% of <br> women |
| Rector's Office team | $86 \%$ | $14 \%$ | $63 \%$ | $38 \%$ |
| University Board of Government | $67 \%$ | $33 \%$ | $68 \%$ | $32 \%$ |
| Board of Trustees of FUBalmes | $83 \%$ | $17 \%$ | $67 \%$ | $33 \%$ |
| Faculty of Education, Translation, <br> Sports and Psychology | $53 \%$ | $47 \%$ | $45 \%$ | $55 \%$ |
| Faculty of Health Sciences and <br> Welfare | $30 \%$ | $70 \%$ | $33 \%$ | $67 \%$ |
| Faculty of Science and Technology | $64 \%$ | $36 \%$ | $71 \%$ | $29 \%$ |
| Faculty of Business and <br> Communication Studies | $50 \%$ | $50 \%$ | $54 \%$ | $46 \%$ |
| Management of departments | $62 \%$ | $38 \%$ | $36 \%$ | $64 \%$ |
| Staff Committee | $76 \%$ | $24 \%$ | $57 \%$ | $43 \%$ |

Teaching and research staff are generally equally distributed from a gender perspective. However, an analysis by centres indicates an increase in female predominance in the Faculty of Health Sciences and Welfare and of male predominance in the Faculties of Business and Communication Studies and the Faculty of Science and Technology.

| Teaching and research staff by <br> centre | 2016 |  | 2021 |  |
| :--- | ---: | ---: | ---: | ---: |
|  | \% of men | \% of <br> women | \% of men | \% of <br> women |

| Faculty of Health Sciences and <br> Welfare | $35 \%$ | $65 \%$ | $27 \%$ | $73 \%$ |
| Faculty of Business and <br> Communication Studies | $60 \%$ | $40 \%$ | $62 \%$ | $38 \%$ |
| Faculty of Science and Technology | $65 \%$ | $35 \%$ | $64 \%$ | $36 \%$ |
| Total | $48 \%$ | $52 \%$ | $47 \%$ | $53 \%$ |

Regarding the distribution of teaching and research staff by category, in all cases percentages are balanced from the perspective of gender equality.

| Teaching and research staff by <br> category | 2016 |  | 2021 |  |
| :--- | ---: | ---: | ---: | ---: |
|  | \% of men | \% of <br> women | \% of men | \% of <br> women |

| Professor |  |  | $40 \%$ | $60 \%$ |
| Collaborator | $40 \%$ | $60 \%$ | $41 \%$ | $59 \%$ |
| Total | $48 \%$ | $52 \%$ | $47 \%$ | $53 \%$ |

Regarding the distribution of teaching and research staff by contracted hours, in all cases percentages are also balanced from the perspective of gender equality.

| Teaching and research staff by <br> contracted hours | 2016 |  | 2021 |  |
| :--- | ---: | ---: | ---: | ---: |
|  | \% of men | \% of <br> women | \% of men | \% of <br> women |
|  | $49 \%$ | $51 \%$ | $47 \%$ | $53 \%$ |

| Part time 2 (50\%) | $44 \%$ | $56 \%$ | $57 \%$ | $43 \%$ |
| Part time (<50\%) | $49 \%$ | $51 \%$ | $47 \%$ | $53 \%$ |
| Total | $48 \%$ | $52 \%$ | $47 \%$ | $53 \%$ |

In terms of research, several aspects should be highlighted.

- Similar percentages are found for teaching and research staff with PhDs, accreditation and research premiums, and for members of research groups, the coordination of these groups and participation in projects as principal investigator.
- The proportion of female teaching and research staff who obtain research projects has increased. However, the difference between the funds received for projects has also increased in favour of male teaching and research staff (the same situation can be found in the average resources obtained by each researcher).
- In terms of research periods abroad, which continue to have equal percentages of men and women, the average duration has increased in both cases and the gap between the sexes has decreased. In contrast, the gap has increased between the amount received by male and female teaching and research staff to fund these periods abroad.
- While there are equal percentages of books published by men and women teaching and research staff, publications of impact have increased significantly in the case of male researchers.

Regarding administrative and service staff, women continue to be predominant in this group in general and in management positions, unit directors, heads of service and managers.

| Administrative and service staff | 2016 |  | 2021 |  |
| :--- | ---: | ---: | ---: | ---: |

| Heads of service | $33 \%$ | $67 \%$ | $32 \%$ | $68 \%$ |
| Managers | $27 \%$ | $73 \%$ | $30 \%$ | $70 \%$ |

In units and services, the predominance of female staff is maintained except in the case of the Infrastructure Unit and UMedia (which have equal percentages of men and women) and the ICT Unit (in which men predominate).

Students are the third group that makes up the university community. An analysis of the data shows that between 2016 and 2021 the overall percentages of female predominance were maintained and that women make up 64\% of the students. The analysis by faculties and centres indicates that exceptions are the Faculty of Science and Technology (with a predominance of male students) and the Faculty of Business and Communication Studies (with equal percentages of men and women).

## 4. REGULATORY FRAMEWORK

The Third Gender Equality Plan of the University of Vic - Central University of Catalonia, which includes the Balmes University Foundation, the Bages University Foundation, the Foundation for Advanced Studies in Health Sciences and the Elisava University School Private Foundation, has been drawn up according to the guidelines set by the following state and Catalan legislation.

- Organic Law 3/2007, of 22 March, on the effective equality of women and men, which establishes measures aimed at equal treatment and opportunities and which foresees, among other things, the promotion of teaching and research on this subject
- Organic Law 4/2007, of 12 April, which amends the organic law on universities (LOU) establishing that equal treatment of women and men and equal opportunities are values that universities must incorporate in their structure and operation as their own objective and that they must project these values to the society that surrounds them and introduce specific regulations to achieve this.
- Royal Decree 901/2020, of 13 October, which regulates equality plans and their registration and amends Royal Decree 713/2010, of 28 May, on the registration and deposit of collective bargaining agreements.
- Royal Decree 902/2020, of 13 October, on equal pay between women and men.
- Law 2/2003, of 29 February, on Universities of Catalonia, which imposes on the relevant ministry for universities and on the universities themselves the promotion of actions to achieve equal opportunities for men and women in all university areas.

Three years after the approval of the Catalan Universities Law, in 2006, the Catalan Institute for Women published the Guia per al disseny i la implantació d'un pla d'igualtat d'oportunitats a les universitats (Guide for the design and implementa-
tion of an equal opportunities plan in universities). The guide states that "the main obstacles that prevent the participation of women on equal terms in the academic world are discriminatory practices in appointments and professional promotions, the strain derived from the dual role in family and professional life, the gender stereotypes on the type of person who works in science or holds academic positions, and the continuous resistance to women occupying management positions" (p.6). Many of these obstacles also apply to the group of administrative and service staff.

- Law 17/2015, of 21 July, on the effective equality of women and men, which aims to establish and regulate the mechanisms and resources to make effective the right to equality and non-discrimination on the grounds of sex in all areas, stages and circumstances of life.

Finally, the UVic-UCC guidelines included in the Organisational and Operational Regulations should be mentioned. These establish that the UVic-UCC adopts the principles of freedom, democracy, justice, equality, solidarity and plurality that is typical of open societies (Art. 1.5). In addition, the guidelines contained in the Code of Ethics establish as principles, among others, equal opportunities between men and women and equity in professional, teaching and research working conditions.

## 5. APPROVAL OF THE THIRD GENDER EQUALITY PLAN

In order to comply with these provisions and with the desire to contribute to the full development of equality between people, the Governing Council of the UVicUCC approved this document on 15 December 2021.

## 6. AREAS, OBJECTIVES AND ACTIONS

This Third Plan aims to establish guidelines that ensure equal opportunities in all areas and services of the University of Vic - Central University of Catalonia: the Balmes University Foundation, the Bages University Foundation, the Foundation for Advanced Studies in Health Sciences and the Elisava University School Private Foundation, taking into account the specific features of each of the centres in the university.

As noted in the Guia per al disseny i la implantació d'un pla d'igualtat d'oportunitats a les universitats (Guide for the design and implementation of an equal opportuni-
ties plan in universities) (p.13), "the University must consider the advantages that equity will bring and the benefits that will be obtained not just for women, but for the entire university community."

The scope of the Third Equality Plan is greater than that of the Second Plan, due to the incorporation of the private Elisava University School Private Foundation through a federal contract signed with the Balmes University Foundation on 22 September 2020. However, the faculties located on the Manresa Campus were already part of the Second Plan, following the federation, on 30 January 2014, of the Balmes University Foundation and the Bages University Foundation, and the Foundation for Advanced Studies in Health Sciences, which joined the federation with the Balmes University Foundation on 20 December 2016. All the entities mentioned above make up the current University of Vic - Central University of Catalonia.

This document envisages the application of measures to ensure equal treatment between men and women. It is structured according to the definition of objectives and actions that fall within the following seven areas of action.

Area 1: Equal opportunities and social responsibility
Area 2: Academic activity: research and teaching
Area 3: Communication, image and language
Area 4: Representation and institutional participation of women
Area 5: Access, promotion and professional development. Working conditions
Area 6: Joint responsibility in work, personal and family life
Area 7: Prevention and eradication of gender violence

## AREA 1:

## Equal opportunities and social responsibility

$\rightarrow$ Objective 1.1. Promote the equality policy and the gender perspective in the strategy and culture of the university organization.

Action 1.1.1. Allocate sufficient resources in the budgets to carry out the set of actions described in the Third Equality Plan.

| Responsible | General Secretary, General Manager, Coordinator of <br> Development and Corporate Policies |
| :--- | :--- |
| Assessment indicators | Specific budget |
| Timing | $2022-2025$ |

Action 1.1.2. Create a monitoring commission for the Third Equality Plan

| Responsible | Equality Unit and Office of the General Secretary |
| :--- | :--- |
| Assessment indicators | Number of meetings of the equality commission |
| Timing | $2022-2025$ |

Action 1.1.3. Ensure that the UVic-UCC's institutional statistical information is always published considering the gender variable and guarantee personal data protection.

| Responsible | Quality Unit |
| :--- | :--- |
| Assessment indicators | Statistical reports of the UVic-UCC |
| Timing | $2022-2025$ |

Action 1.1.4. Encourage the UNEIX university collective and the rest of the universities to integrate the gender perspective in the data structures that are sent to undertake regular monitoring of the Catalan University System.

| Responsible | Quality Unit |
| :--- | :--- |
| Assessment indicators | UNEIX meetings |
| Timing | $2022-2025$ |

$\rightarrow$ Objective 1.2. Seek the involvement of the entire university community in real equality of opportunity at all levels.

Action 1.2.1. Organize awareness-raising actions on matters of equality.

| Responsible | Equality Unit |
| :--- | :--- |
| Assessment indicators | Number of actions |
| Timing | Annual |

Action 1.2.2. Organize training activities on gender and equality issues aimed at the university community.

| Responsible | Equality Unit |
| :--- | :--- |
| Assessment indicators | Number of activities, number of participants |
| Timing | Annual |

$\rightarrow$ Objective 1.3. Seek the participation of the UVic-UCC in public or private initiatives that aim to promote equality in society.

Action 1.3.1. Establish mechanisms for the management and follow-up of requests for advice on gender.

| Responsible | Equality Unit |
| :--- | :--- |
| Assessment indicators | Number of requests |
| Timing | Annual |

Action 1.3.2. Collaborate on the initiatives of public or private bodies to promote policies that favour equality.

| Responsible | Equality Unit |
| :--- | :--- |
| Assessment indicators | Number of initiatives |
| Timing | Annual |

## AREA 2:

Academic activity: research and teaching
$\rightarrow$ Objective 2.1. Ensure that research participation is balanced from a gender perspective and analyse all data in relation to the number of professors (men/ women), based on a weighting using the total number of women/men in teaching and research staff.

Action 2.1.1. Weight all research data in a cross-cutting way, in relation to the number of professors, whether women or men, in each call for applications, area, etc. These data will be used to weight the rest of the analyses.

| Responsible | Research Transfer Office, Library |
| :--- | :--- |
| Assessment indicators | Number of male and female professors at each foundation <br> and across the entire University of Vic |
| Timing | $2022-2025$ |

Action 2.1.2. Carry out a disaggregated analysis by gender of the allocation and evaluation of contracted research hours and periods abroad.

| Responsible | Office of the Vice-Rector for Research, Office of the Vice- <br> Rector for International Relations |
| :--- | :--- |
| Assessment indicators | Percentage of research intensification hours (DIR), basic <br> research hours (DBR) and grants for periods abroad from a <br> gender perspective |
| Timing | $2022-2025$ |

Action 2.1.3. Carry out a gender-disaggregated analysis of researchers and principal investigators in research and knowledge transfer projects.

| Responsible | Office of the Vice-Rector for Research |
| :--- | :--- |
| Assessment indicators | Number of principal investigators (PI) in research and <br> knowledge transfer projects from a gender perspective |
| Timing | $2022-2025$ |

Action 2.1.4. Establish measures to correct the imbalance in research from a gender perspective.

| Responsible | Office of the Vice-Rector for Research |
| :--- | :--- |
| Assessment indicators | To be determined according to the proposed action |
| Timing | $2022-2025$ |

$\rightarrow$ Objective 2.2. Determine and promote the participation of women in protected knowledge transfer projects(spinoff, patents,etc.).

Action 2.2.1. Gather the levels of women's participation in knowledge transfer projects (contracts, agreements, etc.).

| Responsible | Research Transfer Office, OTRI |
| :--- | :--- |
| Assessment indicators | Number of women participating as principal investigators <br> $($ PI) in knowledge transfer projects. In absolute terms, <br> relative terms and separated by project amount (proposed <br> intervals: €1-€19,999; €20,000-€49,999; above €50,000 ) |
| Timing | $2022-2025$ |
