Centre: Barcelona
Course: Start-up creation
Programme: Business, Design and Innovation
Semester: 1 and 2 (Fall and Spring)
ECTS credits: 6
Duration: 45 hours
Language of instruction: English
Instructors: Joan Albert Garcia i Moga

Course description
This course is aimed at understanding the entrepreneurship processes and operations. Starting a company requires multidisciplinary skills on business management. In this course students will be exposed to both the fundamentals of business, and the practical aspects of identifying and evaluating business ideas and moving them forward. The contents will be delivered combining multiple methodologies like case based learning, project based learning, invited speakers and problem based learning.

Prerequisites
None

Attendance policy
Attendance is mandatory for all classes, including study visits. Any exams, tests, presentations, or other work missed due to student absences can only be rescheduled in cases of documented medical or family emergencies. If a student misses more than three classes in the course half a letter grade will be deducted from the final grade for every additional absence. Seven absences in the course will result in a failing grade.
Learning outcomes

Start-Up creation is an academic course in which participants can learn business skills as they gain experience commercializing a new venture in an educational environment.

After the course students will

- understand the stages involved in setting up a business
- have gained the necessary core business skills
- have gained the following applied skills: negotiation, teamwork, public speaking, leadership and pitches
- gather an understanding of the intellectual property rights protection in Start-Ups
- be able to construct, prepare and present a business plan

Method of presentation

- Lectures and discussions: The lectures provide the theoretical content of the sessions together with the adequate visual support. Class discussions facilitate the students' ability to relate readings and lectures, analysing or applying concepts.
- Class Participation: Students are expected to participate in group activities, and in the discussions based on the course readings and cases proposed.
- Student Oral Presentations: Students are expected to make presentations with visual support of their paper themes to the class.
- Guest speakers: guest speakers will be invited to some of the sessions, with the aim of showing real experiences and sharing valuable insights to students. These will either be entrepreneurs or experts and professionals with specific experience in the field that is shown in the session.

Field study

- Study visit: There’s a guided visit to 22@Barcelona and the reference business incubator in Barcelona: Barcelona Activa (http://www.barcelonactiva.cat/barcelonactiva/en/index.jsp). This visit will include the exchange of experiences and open discussion with entrepreneurs. Students are expected to confront their projects and expectations with real experienced entrepreneurs and incorporate the learnings in their business plans.
• Study visit (only Spring semester): 4YFN fair in Barcelona [https://www.4yfn.com](https://www.4yfn.com) one of the most prestigious meetings between start-ups all over the world. The ticket includes one day pass to the World Mobile Congress in Barcelona [https://www.mobileworldcongress.com](https://www.mobileworldcongress.com)

Required work and assessment methods

• Start up business plan (40%): development (in teams) of a business plan that must include the specific issues presented throughout the course. The base mark will be the same for the several members of the team, and will be modified (upwards or downwards) in regards of individual contribution shown.

• Oral presentation: (20%) oral presentation of the business plan.

• Document: (20%) document of 10 to 30 pages (at most), including the different theoretical contributions in the case chosen by the team.

• Cases, readings and exercises (30%): preparation, development and discussions related to exercises will be highly valuable for the success of the course both at individual and group level.

• Participation (30%): individual active participation in discussions, oral presentations and team work. The positive and proactive attitude of the student will be encouraged and valued by professors throughout the course.

Contents
