When you become a UVic-UCC student, a personal user account is automatically created for you so that you have access to all services and resources you will need for day-to-day university life. Your profile details (username and password) will be sent directly to your personal email address. Your university account will remain active while you remain at UVic-UCC.

Your user account gives you access to the Virtual Campus, Office 365, Wi-Fi, printer hubs, computer rooms and many other services.
This is the UVic-UCC intranet. Among other services, it provides a virtual learning environment to support on-campus and online courses.

You will find:
• general university information and specific details for each of your courses
• announcements
• email
• virtual classrooms (Moodle)
• your academic record
• timetables
• ...and much more.

You can use the computer rooms at the Miramarges and Torre dels Frares campuses. These are open morning and afternoon and there is always at least one room available with the software you need carry out your assignments.

You can also use the central printing service. When you register at UVic-UCC, we give you a quota so you can print at any of the printing hubs at the university campuses.

With your UVic-UCC account you can use the Wi-Fi service throughout the UVic-UCC campuses. You just need to set up your device. Each device has its own configuration.

Our virtual classrooms use Moodle, a software that lets us create custom virtual learning environments. But the use made of Moodle will depend on individual teachers, activities and the people involved.

The most frequently used Moodle services are:
• receiving messages from the teacher in the classroom
• consulting the materials made available by teachers
• following links to relevant resources on the web
• sending in assignments online, instead of on paper
• using communication tools such as forums where everyone can participate, ask for help, give their point of view, etc.

If you need guidance on how to use the platform, UVic-UCC will try to help. Call us or leave a message on the URespon channel in the Virtual Campus.

Have a good digital time in our Virtual Campus!

U-Cercatot (http://ucercatot.uvic-ucc.cat) is our search portal for all kinds of content, such as books, journals, articles, repository material and digital resources. You can also search the collections of other libraries, request documents on loan and copies of articles.

Consult the Library website (https://www.uvic.cat/biblioteca) for full details of Library services.
